"The blueprint for Trump's second term"

STEVE BANNON

PROJECT 2025: Cause for Alarm + A Call to Action

The Heritage Foundation – a coalition of 100 right-wing conservative organizations - recently published "**Project 2025: A Presidential Transition Project**" their plan for a post-constitutional federal government in a second Trump Presidency.

PROJECT 2025 GOALS...

- Centralize federal government power by abolishing agency Independence
- Prize loyalty over service + expertise by dismantling civil service
- Severely restrict reproductive freedom
- Reverse progress on climate change
- Curb immigration; dismantling the Dream Act + limiting DACA
- Eliminate protections for transgender people
- Weaken public education
- Undermine marriage equality
- Enforce the death penaltyAND SO MUCH MORE!

PROJECT 2025 IS...

- Recruiting + training extreme loyalists to staff a Trump administration
 - An extreme right-wing threat to democracy, civil rights, the climate + more
 - Ready to change federal government into a Christian nationalist structure
 - Based on an unprecedented expansion of Presidential power
 - A 920-page policy + action plan blueprint for undermining our democracy
 - Funded by Koch network + the conservative philanthropist Leonard Leo
- For more information: [Media Matters Guide to Project 2025](#)

Many believe they will not be affected, or that these policies won't be implemented. But without Democrats in control of the White House, Senate + House, there will be no one to stop it from happening. Let's not take the chance of finding out how much Project 2025 policies might influence a future administration. If implemented, they will affect all of us for generations to come.

“But what has the Biden/Harris Administration done?”

Here are some good answers.

1. Reduced medical costs for everyday Americans (e.g. insulin capped at \$35+ capped out-of-pocket expenses for drugs at \$3000 + massive budget savings)
 2. Protected reproductive rights using executive orders
 3. Increase the number of people that are covered by health insurance so that more are more are covered than at any point in American history
 4. Oversaw an historic recovery in domestic manufacturing + added 800.000 manufacturing jobs – the most in 30 years
 5. Lowered the deficit with the single largest annual reduction in US history.
 6. Achieved nearly record unemployment levels for Hispanics + African Americans + people with disabilities
 7. Rescued the economy and changed the course of the pandemic
 8. Passed a \$108 billion bipartisan infrastructure bill initiating thousands of bridge repair projects + hundreds of thousands of miles of road repair + high speed internet for rural areas + improvements in world-class passenger rail + Great Lakes clean-up.
 9. Brought historic expansion of benefits + services for toxic exposed veterans
 10. Passed the first meaningful gun violence reduction legislation in 30 years
 11. Protected marriage for LGBTQI+ and interracial couples
 12. Confirmed Supreme Court Justice Ketanji Brown Jackson + 387 federal judges of diverse backgrounds + brought advances in equity + racial justice
 13. Rallied the NATO Alliance in support of Ukraine
 14. Rejoined the Paris Agreement on day one to reassert US global leadership to combat the climate crisis.
 15. Worked with bipartisan Senate leadership to address border security- an effort defeated by House Republicans at the request of Trump
-and so much more accomplished + so much more to do!

The facts are clear.

Under the leadership of the Biden-Harris Administration, Democrats have made significant progress in several areas impacting the everyday lives of Americans. Of course, there is always more work to do: the economy + health care + climate + the environment + gun safety + civil rights + civil liberties + immigration + foreign policy.
